

## Job Title: Operational Meteorologist

### About Us

Weatherquest Limited was formed in 2001. Our clients come from a wide range of business sectors, including: water, renewable energy, agriculture, media and transportation. Our offices are located on the campus of the University of East Anglia, just on the edge of Norwich. The university is a vibrant place with beautiful grounds and a full range of amenities for its staff and students. In addition we have the ancient cathedral city of Norwich, the Norfolk Broads and a spectacular coastline right on our doorstep.

We are a close-knit team and encourage ideas from all staff. There will be the opportunity to have a significant influence on the operations and development of the company. As a small team who are passionate about the needs of our clients, we pride ourselves in reacting quickly to be an 'umbrella for their business'.

### Job Description

We are looking to add a full-time operational meteorologist to our team at Weatherquest.

The successful applicant will:

- have a degree in meteorology or related atmospheric science
- demonstrate excellent verbal and written communication skills; producing newspaper forecasts, broadcasting and social media are part of the daily tasks, you will also interact regularly with our customers by telephone
- demonstrate understanding and experience of using state-of-the-art NWP models

Desirable attributes:

- experience in the commercial weather forecasting business
- additional administrative or IT skills
- available to start Spring 2018

Salary will be determined by the experience and qualifications of the successful applicant. Currently there are no overnight shift commitments, however weekend and bank holiday shifts will be required.

To apply, please send a CV and cover letter explaining your interest in working for Weatherquest to [chris.bell@weatherquest.co.uk](mailto:chris.bell@weatherquest.co.uk).

Only those with the current freedom to work within the United Kingdom can be considered.
